MUFFLERS ARE MANDATORY IN ALL CLASSES AT RIVERHEAD RACEWAY.

Tire Bank Eligibility

You MUST have a registered number to be eligible for a tire bank.

- All competitors will have the option to bring a maximum of (4) four tires from the previous completed year at Riverhead Raceway. Tires from previous year do not have to match the competitor who previously used/purchased them but must be "used" in the previous season.
- All barcodes must be legible, and tires must be scanned. Keep in mind these tires, once scanned, will become property of the current team. All penalties and or infractions will be your responsibility.
- All teams will be considered a "Tire Bank" division.

Support Teams

Riverhead Crate Modified, Late Models, Super Pro Trucks, Figure 8, Blunderbust & Street Stocks:

- All competitors listed in the above classes are eligible to purchase eight (8) new tires to start the 2024 season. All 8 tires must be purchased prior to the opening day's main events. The car must be present, and drivers' car numbers must be registered with Riverhead Raceway. Any new team that joins us after the opening day of the 2024 season will be permitted to purchase only 6 tires.
- Based on tire availability, at the end of each completed feature event, you will be awarded one (1) new tire.

NASCAR Modifieds

- All competitors listed in the above class are eligible to purchase eight (8) new tires to start the 2024 season. All 8 tires must be purchased prior to the opening day main events. The car must be present, and drivers' car numbers must be registered with Riverhead Raceway. Any new team after opening day of the 2024 season will be permitted to purchase only 6 tires.
- **Based on tire availability, at the end of each completed feature event, you will be eligible to purchase up to (3) new tires.**

Heat race and Feature tire tech

- The 4 tires you use to qualify, will be the same tires used to start the Feature event.
- These 4 qualifying tires must be placed all together (not stacked but laid flat) in your pit area behind your car, no later than the end of practice. Tech will be by to check them in. We will not wait. If officials come by and they are not ready to be checked in, that team will start last in heat with no passing points.

Tire Credits

- You MUST complete 50% of the feature event to receive a tire credit for the following race. If you fail to complete 50% of the feature event, you must notify the tech official to identify why you were unable to complete 50% of the feature event.
- Officials reserve the right to approve or deny tire credits at any time.
- Tires credits will not be held. If you do not purchase your tire on your return visit, you lose it.

On Track Tire Incident

- A tire credit can be awarded to a driver that has an on-track incident which caused a flat. If you are requesting tire credit, the flat tire must be brought to the official tech area immediately following the conclusion of your feature event. No exceptions! Tires credits will not be held. If you do not purchase your tire on your return visit, you lose it.
- NASCAR Modified team are no longer eligible for tire credits
